Project Lay Summary

Your lay summary will be used for our non-scientific assessors and other assessors who are not specialists in the field. This may be used for public communication.

60 words

## Employment history

Start Date	End Date	Position title	Employer

## Academic qualifications

### Research training

Degree	Year Awarded	University

## Track record

### Publications

List your top five publications relevant to the proposed research project. Please indicate the importance of the research and your role.

**Note:** a full list of career publications can be incorporated into your CV and attached to your application.

#	Full reference	Importance	Role	Year of publication
1				
2				
3				
4				
5				

### Research impact

List up to 10 examples of how your research outputs e.g. publications, conference presentations, datasets, patents, collaborations with academia, government, NGOs, industry and NFPs etc. have effected changes in policy, clinical guidelines and/or practice, or are positioned to achieve other scientific, economic or social impacts.

#	Research Output	Impact(s)
1		

### Research opportunity and performance statement

Please detail any significant interruptions to your career which have affected your research capacity, productivity or contribution. We take gender equity seriously and research output relative to opportunity is an important element of assessment of track record.

## Proposal abstract

300 words
-----------

## Research proposal

The proposal should articulate a sound conceptual basis for the proposed scientific approach, the original thinking that underpins the approach, how this is distinct from other work in the field and the particular strengths that provide competitive advantage. Please provide a detailed outline of your 8-year research program addressing the following: Aims; Background; Research Plan; Proposed Methodology; Importance and Relevance; Challenges/Risks. Maximum 3,000 words.

3,000 words
-------------

## Key collaborators

Please briefly outline the key collaborators involved, how they will contribute to the research program and their respective functions. Indicate if the collaborator has been approached or will be approached.

#	Collaborator's name	Collaborator's organisation	Role and responsibilities
1			max 300 characters

## Proposed research team

Please specify the required members of your research team and the functions they will fulfil. Where known, please include names of team members. The team should possess all the required range of research skills, ideally multidisciplinary in nature, with researchers from all career stages. Please describe which members of the team will be responsible for specific aspects of the project.

#	Position	Role and responsibilities	Name
1			

## Skills and expertise

Please outline how you intend to address any skills or expertise gaps with respect to your research program which are not dealt with in Key Collaborators or Proposed Research Team questions.

500 words
-----------

## Primary program milestones

Please outline briefly the anticipated primary program milestones of your 8 year research program. At least one milestone per year must be entered.

Year	Anticipated milestone

## Vision and innovation

### Vision and innovation

Please describe your vision for your research and what differentiates your proposed research program from current concepts, approaches, methodologies, technologies or interventions.

800 words

### Impact

Please outline the impacts your research will have on biomedical research, health and other outcomes.

500 words

### Proposed translation pathway

Provide an overview of the proposed translation pathway for this research into policy and practice, including consideration of potential commercialisation if appropriate. Describe key stakeholders, beneficiaries or market. For discovery-based programs please describe where this new knowledge will be most relevant.

300 words

## Budget

### Research program budget (GST exclusive)

#	Budget items	Year 1	Year 2	Year 3	Year 4	Year 5
1	-					
<b>Total funds requested</b>						

### Budget justification

800 words

## Host organisation contributions

#	Contribution type	Category	Year 1	Year 2	Year 3	Year 4	Year 5
1							
<b>Total host organisation contributions</b>							

## Independence and leadership

### Emerging Scientific independence

Please provide a description of your emerging scientific independence and how this is distinct from experience gained in previous training environments.

400 words

## Emerging leadership, mentoring and capacity building

Please provide a short description of your leadership experience to date and any recognition you have received. Examples include your ability to supervise and mentor other researchers, providing a suitable environment for students, capacity to build world-class collaborative research teams that demonstrate inclusion, diversity and innovation including potential links to industry, if appropriate.

500 words

## Leadership development

Description of how the Snow Fellowship will assist the applicant to further develop their skills and build their research career

400 words

Description of how the Host Organisation will assist the applicant to further develop their skills and build their research career during the course of the fellowship

400 words

## Snow Fellowship video proposal

### Video link

Please submit a short video addressing the following 3 questions:

- What is your vision for your research, and why is it important? What do you think you will be able to achieve over an 8 year program?
- How will having the long-term Snow Fellowship assist you in achieving these goals?
- How will you mentor and lead the next generation of future researchers?

Your video must not exceed 120 seconds in length.

## Certification

### Applicant certification

I certify that:

- (i) all information in the application is true, accurate and complete;
- (ii) I meet the eligibility criteria for the Snow Fellowship as specified in the Funding Rules;

- (iii) I have complied with and agree to the Snow Fellowship Funding Rules;
- (iv) there are no allegations of a breach of the Australian Code for the Responsible Conduct of Research or research misconduct currently being investigated against me nor have any allegations been previously upheld;
- (v) there are no allegations of bullying and harassment currently being investigated against me nor have any allegations been previously upheld;
- (vi) no conflicts of interest exist in connection with this application and the research proposal. If a conflict of interest arises, I will immediately report it to my Host Organisation and Snow Medical;
- (vii) I will promptly notify Snow Medical if there are any changes in my circumstances that affect my eligibility or participation in the research project that is subject to this application form;
- (viii) the content of my video submission does not contain third party copyrighted material, or material that is subject to other third party proprietary rights unless permission has been granted from the rightful owner of the material or I am otherwise legally entitled to post the material; and
- (ix) I have read, understood, and agree to Snow Medical's Privacy Policy and consent to my personal information being disclosed to overseas entities, organisations or individuals in connection with the assessment of my grant application.

### Host organisation certification

I certify on behalf of the Host Organisation that:

- (i) to the best of my knowledge, all information in the application is true, accurate and complete;
- (ii) the applicant meets the eligibility criteria for the Snow Fellowship as specified in the Funding Rules;
- (iii) should the application be successful, the Host Organisation will enter into Snow Medical's standard Fellowship Funding Agreement;
- (iv) there are no allegations of a breach of the Australian Code for the Responsible Conduct of Research or research misconduct currently being investigated against the applicant nor have any allegations been previously upheld; and
- (v) there are no allegations of bullying and harassment currently being investigated against the applicant nor have any allegations been previously upheld.
